

## **Project Management at Plantronics**

With an Industry Case Study on Risk Management

Kevin Mann, Sr. Project Manager

Plantronics

Santa Cruz

### **Abstract:**

Project managers are faced with many forms of risk, which can negatively influence the cost and schedule of a project. Risk responses such as avoidance, mitigation and in some cases, acceptance are used to deal with the realities of risk. A successful project management office sets a foundation of tools, processes and standards, including risk management strategies, to help guide entire portfolios of projects toward their goals.

### **About the Speaker:**

Kevin graduated from California Polytechnic State University, San Luis Obispo in 2002 with an M.S. and B.S. in Industrial Engineering. He worked for Seagate Technology for 14 years, holding positions in Supply Chain, Global Pricing and IT Enterprise Systems. Kevin joined Plantronics in 2016 and has led projects in the areas of Customer Service, eCommerce, Channel Marketing and Pricing. Kevin has recently taken-on a new role leading the IT Project Management team.
